

12 October 1988

DDA WEEKLY ITEM

STAT In coordination with the Office of General Counsel (OGC), Office of Security (OS) representatives have prepared and disseminated a headquarters notice [redacted] message, and letters to notify all Agency personnel and Non-NFIB Agencies and Departments, including the White House and Congress, regarding the definition of the term "classifiable." This widespread notification is a result of the recent Federal Court decision requiring the Government to clarify the scope of the term "classifiable" as used in the Agency secrecy agreement and Form 4193, "Sensitive Compartmented Information Nondisclosure Agreement."
